

Performance Expectations for *Customer Success Manager*

Clarity on performance expectations and expected outcomes provide the standard for success. To help *you* succeed, we've created unique **Performance Expectations** for each Job Role and band. In addition to these expectations, measurable outcomes for this role includes

1. achievement of Target Incentive
2. extent to which technical activities advance deployment
3. application of skills acquired to progress deployment /influence clients

In each performance period, most IBMers will meet the performance expectations as core performers, some will perform well above their peers and others will have opportunities for growth.

Aligned with the IBM Performance Program guidelines, managers will use Performance Expectation to identify the top, core and low performing member in their teams.

Top Performer	Low Performer
Consistently achieves >100% of sales targets	Frequently falls short of meeting 100% sales targets
overachieves on extent to which technical activities advance deployment and acts as a leader who influences better business outcomes	Frequently underachieves extent to which technical activities advance deployment
applies exceptional skills above the band level to progress deals	struggles to apply acquired skills to progress deals and requires frequent support to complete tasks
earns recognition from peers and superiors	lacking initiative and curiosity to turn challenges into opportunities
